

## Report of Analysis

Relentless Improvement

Attn.: Pete Hitesman  
151 Lindbergh Ave. Suite F  
Livermore, CA 94551

**AACL Control Number: 050107-4292**

Product Name: K2 Menaterenone

Received On: 5/1/2007

Lot Number: 601011 exp04/2009

Analysis Performed / Method	Serving Size: 1 Capsule	Result with Units
Vitamin K2 (menaquinones) HPLC		15.38 mg/serving
Coliforms BAM		400 cfu/g
E. Coli BAM		n.d. cfu/g
Salmonella		Negative
Staphylococcus BAM		n.d. cfu/g
Total Plate Count BAM		26300 cfu/g
Yeast and Molds BAM		80 cfu/g
Arsenic (As) AACL 22 A&B (GFAA)		0.06 mcg/serving
Cadmium (Cd) AACL 22 A&B (GFAA)		0.01 mcg/serving
Lead (Pb) AACL 22 A&B (GFAA)		0.01 mcg/serving

Comments:

The coliform result was confirmed by another method. The W.H.O. (Quality Control Methods for Medicinal Plant Material, 1998) has specified that a sample must contain less than 100,000 microbes/gram of aerobic bacteria, 1000 microbes/gram yeast & mold, and 1000 microbes/gram coliform bacteria.
